

aQUIFI

What we do

- Goal: reduce errors in manufacturing and logistics
- Visual inspection of goods
 -  Size
 -  ID
 -  Defects
- Unique combination of 3D and Deep Learning (Patented)

Why is it important?

- Driving factors:

- Industry 4.0 manufacturing automation

- Faster delivery (same-day)

- Market value (by Forbes): \$90B (2014), \$150B (2020)

Our solution

3D sensor **Constellation™**

Mobile 3D sensor

Discovery™

3D+Color

3D Deep Learning
Endeavour™

Size

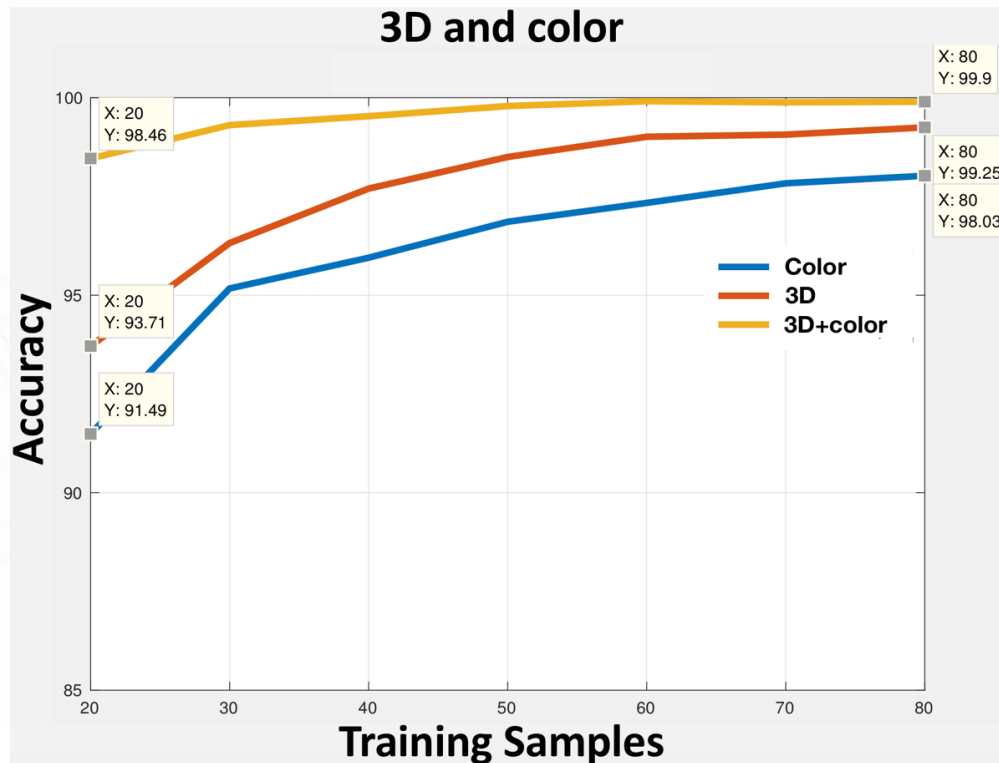

ID

Defects

Secret sauce: 3D and Deep Learning

3D + color for DL → better accuracy & less training samples

Business model and status

- Endeavour™ inspection sold as a service
- Discovery™ handheld MSRP: \$2k - \$3k
- Constellation™ included in service fee
- Manufacturing deployments ongoing
(automotive and consumer products)
- Logistics deployments from Q3 2018
